CRANE DAILY INSPECTION CHECKLIST

1. Preparation Instructions

a. Section 1. GENERAL INFORMATION

(1) In the USMC SERIAL NUMBER block, enter the crane's serial number.

(2) In the TYPE/CAPACITY block, enter the type of crane and its capacity.

(3) In the UNIT block, enter the unit that is accountable for the equipment.

b. Section 2. INSPECTION

(1) In each item block, mark the correct description that reflects the inspection results as indicated in the legend of marking (S = satisfactory, N/A = not applicable, or U = unsatisfactory). The inspection will be completed prior to the crane being employed.

c. Section 3. SPECIAL INSTRUCTIONS

(1) *NOTE* Operator will immediately suspend all crane operations and notify the supervisor, when observing and unsatisfactory conditions of any item indicated with an (*) listed in the inspection section.

d. Section 4. REMARKS

(1) In the REMARKS block, enter comments related to the crane inspection as well as any issues or discrepancies not covered within the inspection section.

e. Section 5. SIGNATURE

(1) The crane operator will sign the OPERATOR block and input the DATE the crane inspection was conducted. The signature and date verifies that the crane daily inspection was properly conducted.
