HQMC Route Sheet Instructions

Refrain from handwritten notes on HQMC Route Sheet, if additional notes to addresses are needed please attach a buck slip.

Block 1: YYYY-MM-DD.

Block 2: Operation Codes for use in block 5.

Block 3: Provide full subject line and ETMS2 TRACKING number associated with package.

Block 4: Provide appropriate routing order.

Block 5: Select appropriate operation codes from block 2.

Block 6: Addressees.

Block 7: Date in and Out.

Block 8: Initial Concur/Non-concur.

Block 9: Identify if the action item is routine or urgent and when the action is due. The due date alone does not determine if the action item is routine or urgent. If the action Item is urgent, include an explanation in the background or discussion sections of block 10. Alternatively, a buck slip or info paper could also be used.

Block 10: REMARKS AND SIGNATURE. Copy and paste the below into block 10 as an outline to edit as appropriate.

TAB A: The action Item for signature or approval.

TAB B: Incoming correspondence if necessary.

TAB C: Background Information.

TAB D: (Add more TABs as required; delete if no tabs used).

1. PURPOSE. (Briefly state purpose: e.g., “Obtain CMC signature on report at Tab A” or “Provide CMC information on XXX.”) The purpose should directly correlate to the final signature requested.

2. BACKGROUND. (Provide brief background of the issue to familiarize the reader.)

3. DISCUSSION. (Provide a brief synopsis of package contents, why it is okay to take the requested action, and Identify/justify due date if any.)

4. COORDINATION. Unless all coordination is marked on the route sheet (i.e., all coordinating officials have initialed the route sheet), always include a Coordination Page as the last Tab or state “None” when none was required.

5. RECOMMENDATION. Request final addressee's signature on XXXXX located in Tab X.

Block 11: Type Name, Rank, Billet, and Title of signing official.

Block 12: Action Officer must provide contact info: name, email, and phone number.
