To:	

1. In recent review of blank forms conducted by this Division, the forms listed in Column (1) below were reported by your office as being obsolete. It is requested that Columns (3) and (4) be completed, the form signed and returned to this office **WITHIN 5 WORKING DAYS** via e-mail (use of submit button above). **THESE TWO COLUMNS MUST BE COMPLETED.**

2. For your information, as forms sponsor, actions resulting from the information you furnish in Columns (3) and (4) will be the basis for destruction of Navy supply stock,as well as updating of the Marine Corps Stock List of Blank Forms (SL-8), the Marine Corps Electronic Forms System (MCEFS), and adjustment of inventory control, forms management and printing records and files at both this Headquarters and the Defense Automated Printing Service (DAPS), Philadelphia, PA.

3. **IT IS IMPORANT** that you understand that disposing of supply system stock (Column (3)) below without simultaneously informing your users by a formal Marine Corps directive/message/e-mail that the form is obsolete and that supply stock has been destroyed, will result in user's to continue a need for its use and consequent requisitioning by them from system stock. If this event occurs, your office, as the form sponsor will be required to resolve the problem directly with the field requisitioner.
