This log provides for recording surface radar contact data. Radar navigation data may also be recorded in this log if desired.

Record surface radar contacts as directed. Standard Instructions for Operational Data Logs (OPNAV 3100/1) apply. Start a new page whenever the date or the time zone used to record data changes.

This is a working log intended primarily for recording information needed by the ship during tactical operations. It is also a source of information for exercise reconstruction and for the preparation of after-action report used log sheets not required by higher command may be destroyed as directed by the Commanding Officer.

BOX	DATA ENTRY
18-21	**TIME:** Enter time associated with this line entry.
23-26	**CONTACT NUMBER :** Enter number assigned. If used for radar navigation entries, enter designation of radar navigation point.
27-29	**CONTACT BEARING:** Enter contact bearing in degrees (true).
30-34	**CONTACT RANGE:** Enter contact range in yards or miles. If miles are used, enter miles in columns 30-31, and use the spaces to the right of the decimal point to record tenths of miles, if needed. If yards are used, ignore the decimal point. If used for radar navigation enteries, enter the range to the radar navigation point.
35-39	**CONTACT COURSE AND SPEED:** When contact course and speed are computed or recomputed, enter course in degrees (true) in columns 35-37, and speed in knots in columns 38-39.
40-51	**CPA:** When CPA is computed or recomputed, enter bearing of contact at CPA in degrees (true) in columns 40-42. Enter range at CPA in yards or miles in columns 43-47, as done for Contact Range. Enter computed time of CPA in columns 48-51. Make a separate line entry when contact arrives at CPA, and so note in REMARKS.
52-56	**CONTACT INDENTITY:** Enter ship type in columns 52-53 and hull number in columns 54-56 in the same manner as entered in the header, if the contact is a known ship. If unknown, leave blank. Use REMARKS for clarification.
57	**RADAR OPERATING MODE:** Enter mode from Code A on front of log in the first line entry of each sheet, and whenever the radar operating mode changes.
58-70	**REMARKS:** Enter remarks pertinent to the line entry, such as identity, size, composition or evaluation of contact, orders to "scrub", etc. Remarks related to a previous line entry, but occurring at a different time, shall be recorded on a separate line.
71	**RANGE UNITS (top of page):** Circle "Y" or "M" to indicate that ranges are in yards or miles, respectively.
72-77	**RADAR MODEL (top of page):** Enter radar designation, omitting prefix "AN/".
