BLOCK 13: During mission/task execution, were hazards/threats properly identified and addressed? Did supporting/supported watchstander(s), supporting/supported unit(s), division(s), WC(s), and DH(s) successfully execute and understand mission implied tasks and specified tasks? Were the RCAs adequate for supervision and tasking? If so, why? If not, why?

GRADING:
- 25% - No hazards were identified or addressed. No supervision implemented. Mission failed.
- 50% - Minimal hazards were identified or addressed. No supervision implemented. Mission failed.
- 75% - Hazards were identified or addressed. Minimal supervision. Mission completed.
- 100% - All personnel identified hazards/threats. Effective supervision. Mission/task completed on time.

BLOCK 14: Was supervision effective in addressing "critical/extreme" and "serious/high" risks? If so, why? If not, why?

GRADING:
- 25% - No supervision identified in addressing "critical/extreme" and "serious/high" risks.
- 50% - Minimal supervision identified. Did not address "critical/extreme" and "serious/high" risks.
- 75% - Minimal supervision identified. Failed to address all "critical/extreme" and "serious/high" risks.
- 100% - Supervision identified. Effectively addressed all "critical/extreme" and "serious/high" risks.

BLOCK 15: Did all members of group staff (group) or CO and/or XO (unit), or division(s) (group/unit), mission lead (group/unit), WC(s), or department head(s) involved in the mission/task attend the debriefing?

GRADING:
- 25% - Briefer and Assessor in attendance.
- 50% - Briefer and 50% functional area groups in attendance are debriefed on mission/task.
- 75% - Briefer and 75% functional area groups in attendance are debriefed on mission/task.
- 100% - All required personnel in attendance are debriefed on mission/task.

BLOCK 16: Was a hot wash or deliberate debrief conducted for all WC(s), DH(s), division(s), and watchstander(s), identifying strengths and weaknesses in regards to implied task(s) and specified task(s)?

GRADING:
- 25% - Briefer and Assessor in attendance.
- 50% - Briefer and 50% functional area groups in attendance.
- 75% - Briefer and 75% functional area groups in attendance.
- 100% - All required personnel in attendance.

BLOCK 17: During debriefing were any additional hazard root causes identified for risk to mission/force success? During debriefing were any additional hazard root causes identified for risk to mission/force that led to mission failure?

GRADING:
- 25% - No debrief.
- 50% - No communication from team members.
- 75% - Only previous hazards identified (i.e., want to get done with brief).
- 100% - Personnel discussed changes during the mission and may have identified new hazards.

BLOCK 18: Were actionable risk to mission/force solutions communicated internally/externally to prevent future risk to mission and risk to forces failures/successes for this and similar evolutions to relevant internal/external unit(s)/group(s)?

GRADING:
- 25% - No debrief.
- 50% - No communication.
- 75% - Communication within unit only for common group exercises.
- 100% - Effective communication on risks to mission/force to unit and group participants.

BLOCK 19: Are completed DRAWs retained for updating of lessons learned and/or best practices for similar missions/tasks (e.g., command "S" drive).

GRADING:
- 25% - No DRAWs retained.
- 50% - DRAWs retained on paper only.
- 75% - DRAWs retained on paper and personnel hard drive.
- 100% - DRAWs retained on command "S" drive for access.

BLOCK 20: Conduction of grading the evolution will be completed by the assessor.

GRADING:
- 25%-100% - In grading the evolution, aggregate the line items by adding and dividing observed evolution events for overall grades.
