BLOCK 15: Did all members of group staff (group) or CO and/or XO (unit), or division(s) (group/unit), mission lead (group/unit), WC(s), or department head(s) involved in the mission/task attend the debriefing?

GRADING:
This tailorable worksheet enables commands to establish grading criteria.

Examples: Pass/Fail or percentages used in grading criteria set forth in OPNAV 3502/1

BLOCK 16: Was a hot wash or deliberate debrief conducted for all WC(s), DH(s), division(s), and watchstander(s), identifying strengths and weaknesses in regards to implied task(s) and specified task(s)?

GRADING:
This tailorable worksheet enables commands to establish grading criteria.

Examples: Pass/Fail or percentages used in grading criteria set forth in OPNAV 3502/1

BLOCK 17: During debriefing were any additional hazard root causes identified for risk to mission/force success? During debriefing were any additional hazard root causes identified for risk to mission/force that led to mission failure?

GRADING:
This tailorable worksheet enables commands to establish grading criteria.

Examples: Pass/Fail or percentages used in grading criteria set forth in OPNAV 3502/1

BLOCK 18: Were actionable risk to mission/force solutions communicated internally/externally to prevent future risk to mission and risk to forces failures/successes for this and similar evolutions to relevant internal/external unit(s)/group(s)?

GRADING:
This tailorable worksheet enables commands to establish grading criteria.

Examples: Pass/Fail or percentages used in grading criteria set forth in OPNAV 3502/1

BLOCK 19: Are completed DRAWs retained for updating of lessons learned and/or best practices for similar missions/tasks (e.g., command "S" drive).

GRADING:
This tailorable worksheet enables commands to establish grading criteria.

Examples: Pass/Fail or percentages used in grading criteria set forth in OPNAV 3502/1

BLOCK 20: Conduction of grading the evolution will be completed by the assessor.

GRADING:
In grading the evolution, aggregate the line items by adding and dividing observed evolution events for overall grades.
