ORM PROGRAM ASSESSMENT SHEET

1. UNIT/ACTIVITY/GROUP/TYCOMM:	2. DATE:	3. TIME:

	ADMINISTRATION/TRAINING	INPUT	COMMENT
4.	Has the Command XO, Chief of Staff, or Civilian equivalent been designated as the ORM Manager?		
5.	Is the OPNAVINST 3500.39 (series) on hand or readily available?		
6.	Does the command have minimum qualified ORM Assistants (formerly ORM Instructors: 1 officer and 1 senior enlisted)?		
7.	Have ORM Assistant(s) trained command personnel, military and civilian, to a level commensurate with rank, experience, and leadership position on ORM during the past year?		
8.	Has the command included ORM in orientation training?		
9.	Does the command document ORM training in members' training records (paper or electronic)?		
	IMPLEMENTATION/FEEDBACK	INPUT	COMMENT
10.	Has the command incorporated identified hazards, risk assessments, and controls into briefs, notices, and written plans?		
11.	Has the command conducted deliberate or in-depth risk assessments for new or complex operational evolutions during the past year, to include defining acceptable risk and possible contingencies (e.g., Joint Risk Assessment Tool (JRAT))?		
12.	Assess one or more evolutions using Evolution ORM Assessment Sheet for ORM process application.		
13.	Have any off-duty risk assessments been documented or controls implemented during the past year?		
14.	Does the command address ORM process in safety, training, and lessons learned reports, to include comments on hazards, risk assessments, and effectiveness of controls?		
15.	Were hazards that could not be controlled or mitigated to acceptable levels reported to appropriate higher authority during the past year?		
16.	Have root causes of conditions that led to command mission failures been identified and actionable solutions implemented to prevent recurrence during the past year?		
17.	Has the command submitted ORM "lessons learned" or "best practices" externally during the past year (e.g., CON (N09F), Safety Gram, Hazard Reports, etc.)?
