ELECTRICAL MISHAP INVESTIGATION

Use this form to collect information for shocks and electrical mishaps involving electrical energy, fires, and falls from contact from electrical current.

Information is requested so that a cause for the mishap can be determined to improve electrical safety. No attempt is made to assign blame or determine responsibilities which could have led to the mishap. This electrical mishap investigation form helps identify actions needed to prevent future mishaps, such as improved equipment, safer electrical technology designs, improved protective equipment, and training. The form should be completed in conjunction with individuals who were present during the mishap. Military departments may choose to link this electrical mishap form with their military department level mishap reporting system; however, at this time, the form is optional in USN and not required to be submitted into Navy's centralized mishap reporting system.

PART A should be completed for all electrically related mishaps.

PART B should only be completed if the mishap involves direct current: capacitors, batteries, sub-radio frequency (1Hz - 3KHz), welding, radio frequency (>3Khz), photovoltaic, or wind generators:

1. Names(s) of Investigator(s).	2. Investigator's E-Mail:
3. Date Form Initiated:	4. Date Form Completed:

PART A
To be completed for all electrically related MISHAPS

5. Name of Injured Worker.	6. Job Title of Injured Worker.

7. Were others involved in mishap, or located in the work area at the time of the mishap? ☐ YES ☐ NO

If "YES", please explain:

8. Was the worker military, civilian, or a contractor?	9. Was the worker working CONUS or OCONUS?
10. Was the worker(s) injured or killed?	11. Was there significant property damage resulting from the electrical incident? ☐ YES ☐ NO If "YES", what was the estimated damage value?

12. Date and Time of MISHAP:	13. Location of MISHAP.

14. Was work done indoors including unconditioned spaces or outdoors? ☐ INDOORS ☐ OUTDOORS

15. Did the mishap occur in a confined or enclosed space with limited working space? ☐ YES ☐ NO

If "YES", please explain with details:

18. Did other hazards exist at the time of the accident, such as the occurrence of hazardous materials/combustibles, heavy loads, moving or fixed machines, vehicles and equipment, or working at heights? ☐ YES ☐ NO

If "YES", please list:
