19. Were there wet, damp, or extreme humid conditions?
☐ YES ☐ NO

20. What was the approximate temperature?

21. What was the approximate humidity level?

22. Was the altitude above 6,000 feet?
☐ YES ☐ NO

23. Please provide a description of the mishap *(describe items such as: events that led up to the mishap, conditions, basic facts surrounding the mishap, what factors contributed to the mishap (electrical fire, shock/electrocution or arc flash).*

**Attach a photo or diagram that helps describe the mishap in the last field of PART A.**

24. Did the MISHAP Involve *(Check all that apply. (NOTE: If "c" is selected PART B must also be completed.)*

a. ☐ Contact with energized power line

b. ☐ Contact with energized circuit or component of equipment *(i.e., 50/60 Hz equipment/generator)*

c. ☐ Solar arrays, wind energy, battery, capacitor, or waveforms other than 50/60 Hz power *(such as direct current)*

d. Did the MISHAP involve a fire ☐YES ☐NO. If yes, military departments may wish to link this electrical MISHAP investigation report to the fire incident report tracked in the National Fire Incident Reporting System (NFIRS). See: http://www.public.navy.mil/navsafecen/Pages/OSH/NFIRSs.aspx

25. At the time of the incident, was the worker working alone? ☐ YES ☐ NO

26. What was the worker doing at the time of the accident *(please explain the work being done when the mishap occurred)*?

27. Was the worker performing electrical work *(plugging in an appliance or changing a light bulb is not electrical work)*? ☐ YES ☐ NO

28. Working Mode *(Select one)*:

☐ Electrically safe working condition *(non-energized work, lockout-tagout procedures followed)*

☐ Process of de-energization and zero energy verification *(one time use of meter in process of de-energizing the system lock/tag is on)*

☐ Testing and/or troubleshooting *(i.e., using a meter in multiple readings, no lockout/tagout system)*

☐ Energized electrical work *(i.e., components are being replaced and manipulated during energized work)*

29. Was the worker a qualified electrical worker to perform this task? ☐YES ☐NO

30. Was there authorization to perform this work? ☐YES ☐NO
If "YES", at what level was work authorized *(i.e., name of risk acceptance authority level)*?
