44. What was the estimated duration of the shock? _____ Seconds _____ Minutes ☐ Don't Know

45. Was there an arc flash? ☐ YES ☐ NO If "NO", skip to question #51. If "YES:

a. Were workers injured? Please explain:

b. Was there property or mission related damage? Please explain:

46. List all known causal factors of the arc flash mishap:

| 47. What was the voltage? | 48. How large was the transformer feeding the system *(e.g.kVA)*? |
|---|---|
| 49. Was an arc flash analysis done? ☐ YES ☐ NO ☐ DON'T KNOW | 50. Was the arc flash boundary known to the injured person? ☐ YES ☐ NO ☐ DON'T KNOW |

51. Did the worker fall? ☐ YES ☐ NO If "NO", skip to question #57.

If "YES", please explain *(was the fall from a ladder, scaffold, etc.)*:

| 52. Did the fall result from electrical contact? ☐ YES ☐ NO | 53. Did an initial slip or fall expose the worker to electrical or other hazards? ☐ YES ☐ NO |
|---|---|

54. What was the height of the fall *(if known)*?

55. What injuries resulted from the fall *(if known)*?

56. Was the worker wearing Personal Protective Equipment (PPE)? ☐ YES ☐ NO

57. For shock protection, were electric gloves worn? ☐ YES ☐ NO

If "YES", please explain what voltage class dielectric gloves were worn:
