NAV-IDAS INFORMATION TECHNOLOGY PROCUREMENT REQUEST

The term information technology (IT) is defined in accordance with the Clinger-Cohen Act of 1996, encompassing any equipment, interconnected system, subsystem, service (including support service), or related resource that is used in the access, retrieval, transport, processing, analysis, and/or display of non-tactical, business-related or business process-related data or information. Specifically excluded from this definition are IT resources that are physically part of and essential in real time to the mission performance of a weapons system, otherwise known as platform IT. The term support services includes all services required for developing, installation, maintenance, modification, or procurement and or lease of IT materiel or systems.
