INSTRUCTIONS FOR URINALYSIS OBSERVERS

OBSERVER NAME:

RANK/RATE:

NCODE:

- Sample bottle **MUST** remain in your sight at all times.

- Sample bottle **MUST** be kept in the possession of the individual being tested **AT ALL TIMES** before being turned over to the urinalysis coordinator.

- The service member will be escorted to the Head. The observer shall observe the service member urinating into the specimen bottle, placing the cap on the bottle, and delivering the bottle directly to the urinalysis coordinator.

- Physically perform a secondary check of the bottle cap/lid to ensure it was securely tightened.

- Never take possession of the sample bottle (except to verify the lid security described above).

- For female service members, the observer shall observe the service member urinating into the wide-mouth bottle, transferring the urine to the specimen bottle, placing the cap on the bottle, disposing of the wide-mouth bottle and delivering the specimen bottle directly to the urinalysis coordinator.

- Ensure a minimum 30 ml is provided.

- Escort the service member back to the urinalysis coordinator for verification of the ledger and label. Upon proper verification of the ledger, the observer will print and sign the ledger in addition to noting "Lid is tight" in the comments box and signing next to the comment.

- If a problem develops at any time during the collection process, immediately terminate the collection and notify the urinalysis coordinator.

I have read and understand the above instructions.
