BURIAL AT SEA PORT CHECKLIST

PRIVACY ACT STATEMENT

AUTHORITY: 10 U.S.C. 5013, Secretary of the Navy; OPNAVINST 5360.2; and SORN A0600-8-1c AHRC DoD.
PURPOSE: To outline the procedure for preparing, inspecting, and shipping intact/casketed remains for burial at sea.
ROUTINE USES: Augments the OPNAV 5360/1 Burial at Sea Request/Authorization when remains identified for burial at sea are intact/casketed (vice cremated.)
DISCLOSURE: Completion of this form is voluntary, but failure to complete this form will not provide the Department of the Navy with sufficient information to adjudicate a burial at sea request for intact/casketed remains.

a. The remains have been received in a state of preservation to ensure no odorous emissions or decomposition for a period of at least 60 days.		
b. The remains are in a metal casket and all seals normally designed to inhibit the penetration of external elements into the casket have been removed.		
c. Casketed remains must weigh at least 300 pounds. Sandbags may be used for additional weight and when placed inside the foot-end of the casket, will ensure "feet first" sinking.		
d. The casket is banded with a minimum of six (6) nylon or metal bands, at least 3/4 of an inch wide. The bands are placed: two around the head panel, two around the foot panel, one lengthwise, over and under, head to foot, and one horizontally head to foot.		
e. A total of 20, two inch holes have been drilled in the casket. The holes are spaced to ensure there are four holes in the head panel; four in the foot panel; eight holes in the bottom and two in each end.
