SECTION D - DISTINGUISHED VISITOR MEDICAL INFORMATION

29. ☐ * Click here to certify that you have read and agree with the following statement:

Certain medical conditions are not compatible with Navy vessel environment and may be beyond the capabilities of the onboard Medical Department if medical intervention is required. The information requested below will help the Medical Department make recommendations to the ship's Command Officer concerning which medical conditions are compatible with embarkation aboard Navy vessel.

For safety reasons, those who require the use of crutches, canes or wheel chairs, or have a medical condition that limits their ability to climb three flights of steps/stairs without assistance will not be authorized to embark aboard.
Additionally, in accordance with current Navy directives, pregnant females are not eligible for embarkation.

You are required to ***bring all of your medications*** in sufficient quantities to cover your entire time aboard the vessel, including travel to and from embarkation. Unfortunately, the Medical Department will only provide emergency medications (if on hand).

30. Medical/Food Restrictions (*including food allergies - limited to 500 characters*):

31. Current Medications/Dosage (*limited to 500 characters*):

32. Do you wear a medical alert tab/bracelet? ☐ Yes** ☐ No
