EXPLOSIVES FAMILY GROUP OR DEVICE	CERTIFICATION LEVEL/ WORK TASK	FORM OF TRAINING	INSTRUCTOR /OBSERVER PRINTED NAME	TRAINING DATE	ENTERED BY

REMARKS:

NOTE-1: Document training with a dated single line entry for each form of training conducted.
NOTE-2: When documenting WTC 1 and 2, with the exception of AES, only the Family Group (FG) is required. Use the FG drop-down button to select.
NOTE-3: When documenting WTC 1 and 2 for AES, document the FG (AES) and Sub-FG in the Device block (e.g., cartridge-actuated devices (CAD), propellant actuated devices (PAD), or shielded mild detonating cord (SMDC)).
NOTE-4: When documenting WTCs 3, 5 and 6, the FG and the applicable Sub-FG Device must be listed. When adding the Device, type in the all-up-round (AUR) from Sub-FG Device listing in Table 6-1 of OPNAVINST 8023.24D. See tables 3-3 and 3-4 of OPNAVINST 8023.24D for documentation examples.
NOTE-5: When documenting WTC 4, use the same process as NOTE-4; however, in the Device block after the AUR, add the supporting cartridges used during load/download. See table 3-5 of OPNAVINST 8023.24D for documentation examples.
NOTE-6: When documenting Formal Training, enter the title of the training in the Device block (e.g., AMMO-18, AMMO-49, etc.). FG, WTC, and Certification Level are not required.
